Form PCT/IPEA/409 (cover sheet)(July 1998)

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/US03/39505

I. Basis of the report

1. With regard to the elements of the international application:*

- ☐ the international application as originally filed.
- ☒ the description:
pages 1-6, 8-15, 17, 19, 20 and 22-33 as originally filed
pages 7, 7A, 16, 16A, 18, 18A, 21 and 21A, filed with the demand
pages NONE, filed with the letter of _____.
- ☒ the claims:
pages 34-41, as originally filed
pages NONE, as amended (together with any statement) under Article 19
pages NONE, filed with the demand
pages NONE, filed with the letter of _____.
- ☒ the drawings:
pages NONE, as originally filed
pages 1-22, filed with the demand
pages NONE, filed with the letter of _____.
- ☐ the sequence listing part of the description:
pages NONE, as originally filed
pages NONE, filed with the demand
pages NONE, filed with the letter of _____.

2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language _____ which is:

- ☐ the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).
- ☐ the language of publication of the international application (under Rule 48.3(b)).
- ☐ the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).

3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in printed form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. ☐ The amendments have resulted in the cancellation of:

- ☐ the description, pages NONE
- ☐ the claims, Nos. NONE
- ☐ the drawings, sheets/fig NONE

5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**

* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).

** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.
PCT/US03/39505**V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement****1. STATEMENT**

Novelty (N)	Claims <u>5, 6, 12-19, 23</u>	YES
	Claims <u>1-4, 7-11, 20-22, 24-55</u>	NO
Inventive Step (IS)	Claims <u>NONE</u>	YES
	Claims <u>1-55</u>	NO
Industrial Applicability (IA)	Claims <u>1-55</u>	YES
	Claims <u>NONE</u>	NO

2. CITATIONS AND EXPLANATIONS

Claims 1-4, 7-11, 20-22 and 24-55 lack novelty under PCT Article 33(2) as being anticipated by Skurkovich et al. (US 5,626,843). Skurkovich et al. discloses a method of screening blood through a device having probes to bind to materials in blood and to remove them, inlet and outlet and filters (col. 3, line 59 - col. 4, line 17.)

Claims 5, 6, 12-19 and 23 lack an inventive step under PCT Article 33(3) as being obvious over Skurkovich et al. (US 5,626,843), in view of Chenchik et al. (US 6,287,768 B1). Skurkovich discloses the invention substantially as claimed, however Skurkovich does not disclose that the device removing from blood is a chip. Chenchik et al. (US 6,287,768 B1), discloses a chip having probes to bind to materials, an inlet and outlet, the chip providing for ease of analysis and high throughput (col. 6, lines 38-59). It would have been obvious to use the chip disclosed by Chenchik et al. to remove unwanted materials from blood in the Skurkovich et al. invention for convenience and high throughput.

Claims 1-55 meet the criteria set out in PCT Article 33(4), and thus meet industrial applicability because the subject matter claimed can be made or used in industry.

NEW CITATIONS

US 5,626,843 (SKURKOVICH et al.) 6 May 1997 (06.05.1997), see column 2, lines 60-65, and col. 4, lines 6-17.
